Product Datasheet

Rat Galactosidase Beta (GLb) ELISA Kit BYT-ORB1291289

Article Name	Rat Galactosidase Beta (GLb) ELISA Kit
Biozol Catalog Number	BYT-ORB1291289
Supplier Catalog Number	orb1291289
Alternative Catalog Number	BYT-ORB1291289-48, BYT-ORB1291289-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	Rat GLb (Galactosidase Beta) ELISA Kit...
Concentration	8000 pg/mL
Range	125-8000 pg/mL
Sensitivity	54 pg/mL
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids

Application Notes

Application Notes: standard: 8000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat GLb. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat GLb. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat GLb, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat GLb in the samples is then determined by comparing the OD of the samples to the standard curve
