Product Datasheet

Hamster Low Density Lipoprotein (LDL) ELISA Kit BYT-ORB1291314

Article Name	Hamster Low Density Lipoprotein (LDL) ELISA Kit
Biozol Catalog Number	BYT-ORB1291314
Supplier Catalog Number	orb1291314
Alternative Catalog Number	BYT-ORB1291314-48, BYT-ORB1291314-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Hamster
Product Description	Hamster LDL (Low Density Lipoprotein) ELISA Kit...
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.62 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 400 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster LDL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster LDL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster LDL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Hamster LDL in the samples is then determined by comparing the OD of the samples to the standard curve
