Product Datasheet

General Eicosapentaenoic Acid (EPA) ELISA Kit BYT-ORB1291330

Article Name	General Eicosapentaenoic Acid (EPA) ELISA Kit
Biozol Catalog Number	BYT-ORB1291330
Supplier Catalog Number	orb1291330
Alternative Catalog Number	BYT-ORB1291330-48, BYT-ORB1291330-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	All
Product Description	General EPA (Eicosapentaenoic Acid) ELISA Kit...
Concentration	20 ng/mL
Range	0.31-20 ng/mL
Sensitivity	0.13 ng/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 20 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with EPA protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to EPA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of EPA in the samples is then determined by comparing the OD of the samples to the standard curve
