Product Datasheet

Human Dopamine (DA) ELISA Kit BYT-ORB1291358

Article Name	Human Dopamine (DA) ELISA Kit
Biozol Catalog Number	BYT-ORB1291358
Supplier Catalog Number	orb1291358
Alternative Catalog Number	BYT-ORB1291358-48, BYT-ORB1291358-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	Human DA (Dopamine) ELISA Kit...
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.53 pg/mL
Samples	serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human DA protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human DA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human DA in the samples is then determined by comparing the OD of the samples to the standard curve
