## Product Datasheet

### Mouse Interferon Beta (IFN $\beta$ ) ELISA Kit BYT-ORB776213

Article Name	Mouse Interferon Beta (IFN $\beta$ ) ELISA Kit
Biozol Catalog Number	BYT-ORB776213
Supplier Catalog Number	orb776213
Alternative Catalog Number	BYT-ORB776213-48, BYT-ORB776213-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Interferon Beta(IFN $\beta$ )....
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	2.7 pg/mL
UniProt	<a href="#">P01575</a>
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 500 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse IFN $\beta$ . Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse IFN $\beta$ . Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse IFN $\beta$ , biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm  $\pm$  10nm. The concentration of Mouse IFN $\beta$  in the samples is then determined by comparing the OD of the samples to the standard curve
