Product Datasheet

Mouse Beta-Endorphin (bEP) ELISA Kit BYT-ORB776270

Article Name	Mouse Beta-Endorphin (bEP) ELISA Kit
Biozol Catalog Number	BYT-ORB776270
Supplier Catalog Number	orb776270
Alternative Catalog Number	BYT-ORB776270-48, BYT-ORB776270-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Beta-Endorphin(bEP) protein. Standards or samples are added to the appropriate microtiter plate wells then ...
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.78 pg/mL
Samples	Serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse bEP protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse bEP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse bEP in the samples is then determined by comparing the OD of the samples to the standard curve
