Product Datasheet

Rabbit Tissue Factor (TF) ELISA Kit BYT-ORB776307

Article Name	Rabbit Tissue Factor (TF) ELISA Kit
Biozol Catalog Number	BYT-ORB776307
Supplier Catalog Number	orb776307
Alternative Catalog Number	BYT-ORB776307-48, BYT-ORB776307-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rabbit
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Tissue Factor(TF)....
Concentration	400 pg/mL
Range	6.25-400 pg/mL
Sensitivity	2.57 pg/mL
UniProt	P24055
Samples	plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 400 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit TF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit TF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit TF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit TF in the samples is then determined by comparing the OD of the samples to the standard curve
