## Product Datasheet

### Rat Glycoprotein 130 (gp130) ELISA Kit BYT-ORB776360

Article Name	Rat Glycoprotein 130 (gp130) ELISA Kit
Biozol Catalog Number	BYT-ORB776360
Supplier Catalog Number	orb776360
Alternative Catalog Number	BYT-ORB776360-48, BYT-ORB776360-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Glycoprotein 130(gp130)....
Concentration	40 ng/mL
Range	0.63-40 ng/mL
Sensitivity	0.254 ng/mL
Samples	Serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 40 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat gp130. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat gp130. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat gp130, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat gp130 in the samples is then determined by comparing the OD of the samples to the standard curve
