Product Datasheet

Human Cholecystokinin (CCK) ELISA Kit BYT-ORB776498

Article Name	Human Cholecystokinin (CCK) ELISA Kit
Biozol Catalog Number	BYT-ORB776498
Supplier Catalog Number	orb776498
Alternative Catalog Number	BYT-ORB776498-48, BYT-ORB776498-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Cholecystokinin(CCK) protein. Standards or samples are added to the appropriate microtiter plate wells then...
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.14 pg/mL
UniProt	P06307
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human CCK protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CCK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CCK in the samples is then determined by comparing the OD of the samples to the standard curve
