## Product Datasheet

### Rat Inhibin Beta A (INHbA) ELISA Kit BYT-ORB776508

Article Name	Rat Inhibin Beta A (INHbA) ELISA Kit
Biozol Catalog Number	BYT-ORB776508
Supplier Catalog Number	orb776508
Alternative Catalog Number	BYT-ORB776508-48, BYT-ORB776508-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Inhibin Beta A(INHbA)....
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.7 pg/mL
UniProt	<a href="#">P18331</a>
Samples	Serum, plasma and other biological fluids.

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat INHbA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat INHbA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat INHbA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat INHbA in the samples is then determined by comparing the OD of the samples to the standard curve
