Product Datasheet

Rat Tumor Necrosis Factor Related Apoptosis Inducing Ligand (TRAIL) ELISA Kit BYT-ORB776890

Article Name	Rat Tumor Necrosis Factor Related Apoptosis Inducing Ligand (TRAIL) ELISA Kit
Biozol Catalog Number	BYT-ORB776890
Supplier Catalog Number	orb776890
Alternative Catalog Number	BYT-ORB776890-48, BYT-ORB776890-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Tumor Necrosis Factor Related Apoptosis Inducing Ligand(TRAIL)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.053 ng/mL
Samples	Serum, plasma, tissue homogenates, cell lysates and other biological fluids.

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat TRAIL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat TRAIL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat TRAIL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat TRAIL in the samples is then determined by comparing the OD of the samples to the standard curve
