Product Datasheet

Human Teratocarcinoma Derived Growth Factor 1 (TDGF1) ELISA Kit BYT-ORB776907

Article Name	Human Teratocarcinoma Derived Growth Factor 1 (TDGF1) ELISA Kit
Biozol Catalog Number	BYT-ORB776907
Supplier Catalog Number	orb776907
Alternative Catalog Number	BYT-ORB776907-48, BYT-ORB776907-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Teratocarcinoma Derived Growth Factor 1(TDGF1)....
Concentration	5000 pg/mL
Range	78.13-5000 pg/mL
Sensitivity	31 pg/mL
UniProt	P13385
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids

Application Notes

Application Notes: standard: 5000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human TDGF1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human TDGF1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human TDGF1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human TDGF1 in the samples is then determined by comparing the OD of the samples to the standard curve
