Product Datasheet

Human Ferritin, Heavy Polypeptide (FTH) ELISA Kit BYT-ORB777000

Article Name	Human Ferritin, Heavy Polypeptide (FTH) ELISA Kit
Biozol Catalog Number	BYT-ORB777000
Supplier Catalog Number	orb777000
Alternative Catalog Number	BYT-ORB777000-48, BYT-ORB777000-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Ferritin, Heavy Polypeptide(FTH)....
Concentration	500 ng/mL
Range	31.25-2000 pg/mL
Sensitivity	12.9 pg/mL
UniProt	P02794
Samples	Serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 2000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human FTH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human FTH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human FTH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human FTH in the samples is then determined by comparing the OD of the samples to the standard curve
