Product Datasheet

Human Complement Component 9 (C9) ELISA Kit BYT-ORB777060

Article Name	Human Complement Component 9 (C9) ELISA Kit
Biozol Catalog Number	BYT-ORB777060
Supplier Catalog Number	orb777060
Alternative Catalog Number	BYT-ORB777060-48, BYT-ORB777060-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Complement Component 9(C9)....
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.68 ng/mL
UniProt	P02748
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 400 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human C9. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human C9. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human C9, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human C9 in the samples is then determined by comparing the OD of the samples to the standard curve
