Product Datasheet

Mouse Coagulation Factor XII (F12) ELISA Kit BYT-ORB777070

Article Name	Mouse Coagulation Factor XII (F12) ELISA Kit
Biozol Catalog Number	BYT-ORB777070
Supplier Catalog Number	orb777070
Alternative Catalog Number	BYT-ORB777070-48, BYT-ORB777070-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Coagulation Factor XII(F12)....
Concentration	4000 pg/mL
Range	62.5-4000 pg/mL
Sensitivity	25.8 pg/mL
UniProt	Q80YC5
Samples	plasma

Application Notes

Application Notes: standard: 4000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse F12. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse F12. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse F12, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse F12 in the samples is then determined by comparing the OD of the samples to the standard curve
