Product Datasheet

Rat Activated Protein C (APC) ELISA Kit BYT-ORB777105

Article Name	Rat Activated Protein C (APC) ELISA Kit
Biozol Catalog Number	BYT-ORB777105
Supplier Catalog Number	orb777105
Alternative Catalog Number	BYT-ORB777105-48, BYT-ORB777105-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Activated Protein C(APC)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.055 ng/mL
Samples	Plasma.

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat APC. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat APC. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat APC, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat APC in the samples is then determined by comparing the OD of the samples to the standard curve
