## Product Datasheet

### Human Acid Phosphatase 2, Lysosomal (ACP2) ELISA Kit BYT-ORB777164

Article Name	Human Acid Phosphatase 2, Lysosomal (ACP2) ELISA Kit
Biozol Catalog Number	BYT-ORB777164
Supplier Catalog Number	orb777164
Alternative Catalog Number	BYT-ORB777164-48, BYT-ORB777164-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Acid Phosphatase 2, Lysosomal(ACP2)....
Concentration	4000 pg/mL
Range	62.5-4000 pg/mL
Sensitivity	24 pg/mL
UniProt	<a href="#">P11117</a>
Samples	Serum, plasma, tissue homogenates and other biological fluids.

Application Notes

Application Notes: standard: 4000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human ACP2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human ACP2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human ACP2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human ACP2 in the samples is then determined by comparing the OD of the samples to the standard curve
