## Product Datasheet

### Rat Ornithine Carbamoyl Transferase (OCT) ELISA Kit BYT-ORB780108

Article Name	Rat Ornithine Carbamoyl Transferase (OCT) ELISA Kit
Biozol Catalog Number	BYT-ORB780108
Supplier Catalog Number	orb780108
Alternative Catalog Number	BYT-ORB780108-48, BYT-ORB780108-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Ornithine Carbamoyl Transferase(OCT)....
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.56 ng/mL
Samples	Serum, plasma, tissue homogenates and other biological fluids.

Application Notes

Application Notes: standard: 400 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat OCT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat OCT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat OCT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat OCT in the samples is then determined by comparing the OD of the samples to the standard curve
