Product Datasheet

Mouse Catalase (CAT) ELISA Kit BYT-ORB780144

Article Name	Mouse Catalase (CAT) ELISA Kit
Biozol Catalog Number	BYT-ORB780144
Supplier Catalog Number	orb780144
Alternative Catalog Number	BYT-ORB780144-48, BYT-ORB780144-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Catalase(CAT)...
Concentration	4000 pg/mL
Range	62.5-4000 pg/mL
Sensitivity	26.1 pg/mL
UniProt	P24270
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 4000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse CAT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse CAT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse CAT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse CAT in the samples is then determined by comparing the OD of the samples to the standard curve
