## Product Datasheet

### Cattle Defensin Beta 2 (DEFb2) ELISA Kit BYT-ORB780907

Article Name	Cattle Defensin Beta 2 (DEFb2) ELISA Kit
Biozol Catalog Number	BYT-ORB780907
Supplier Catalog Number	orb780907
Alternative Catalog Number	BYT-ORB780907-48, BYT-ORB780907-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Bovine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Defensin Beta 2(DEFb2)....
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.7 pg/mL
UniProt	<a href="#">P46160</a>
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle DEFb2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle DEFb2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle DEFb2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle DEFb2 in the samples is then determined by comparing the OD of the samples to the standard curve
