Product Datasheet

Mouse Oxoguanine Glycosylase 1 (OGG1) ELISA Kit BYT-ORB780981

Article Name	Mouse Oxoguanine Glycosylase 1 (OGG1) ELISA Kit
Biozol Catalog Number	BYT-ORB780981
Supplier Catalog Number	orb780981
Alternative Catalog Number	BYT-ORB780981-48, BYT-ORB780981-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Oxoguanine Glycosylase 1(OGG1)....
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	12.8 pg/mL
Samples	Serum, plasma, tissue homogenates and other biological fluids.

Application Notes

Application Notes: standard: 2000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse OGG1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse OGG1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse OGG1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse OGG1 in the samples is then determined by comparing the OD of the samples to the standard curve
