Product Datasheet

Human PCNA Associated Factor 15kDa (PAF) ELISA Kit BYT-ORB781094

Article Name	Human PCNA Associated Factor 15kDa (PAF) ELISA Kit
Biozol Catalog Number	BYT-ORB781094
Supplier Catalog Number	orb781094
Alternative Catalog Number	BYT-ORB781094-48,BYT-ORB781094-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to PCNA Associated Factor 15kDa(PAF)....
Concentration	50 ng/mL
Range	0.79-50 ng/mL
Sensitivity	0.27 ng/mL
UniProt	Q15004
Samples	Serum, plasma, tissue homogenates, cell lysates and other biological fluids.

Application Notes	Application Notes: standard: 50 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PAF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PAF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PAF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human PAF in the samples is then determined by comparing the OD of the samples to the standard curve
