Product Datasheet

Rat Microsomal Triglyceride Transfer Protein (MTTP) ELISA Kit BYT-ORB781323

Article Name	Rat Microsomal Triglyceride Transfer Protein (MTTP) ELISA Kit
Biozol Catalog Number	BYT-ORB781323
Supplier Catalog Number	orb781323
Alternative Catalog Number	BYT-ORB781323-48, BYT-ORB781323-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Microsomal Triglyceride Transfer Protein(MTTP)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.054 ng/mL
UniProt	D4A1W8
Samples	tissue homogenates, cell lysates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat MTTP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat MTTP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat MTTP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat MTTP in the samples is then determined by comparing the OD of the samples to the standard curve
