## Product Datasheet

### Human Inositol Polyphosphate-4-Phosphatase Type II 105kDa (INPP4B) ELISA Kit BYT-ORB781438

Article Name	Human Inositol Polyphosphate-4-Phosphatase Type II 105kDa (INPP4B) ELISA Kit
Biozol Catalog Number	BYT-ORB781438
Supplier Catalog Number	orb781438
Alternative Catalog Number	BYT-ORB781438-48, BYT-ORB781438-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Inositol Polyphosphate-4-Phosphatase Type II 105kDa(INPP4B)....
Concentration	100 ng/mL
Range	1.57-100 ng/mL
Sensitivity	0.67 ng/mL
UniProt	<a href="#">O15327</a>
Samples	Tissue homogenates, cell lysates and other biological fluids

Application Notes

Application Notes: standard: 100 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human INPP4B. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human INPP4B. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human INPP4B, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human INPP4B in the samples is then determined by comparing the OD of the samples to the standard curve
