Mouse Motilin (MTL) ELISA Kit BYT-ORB781476

| | |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | Mouse Motilin (MTL) ELISA Kit |
| Biozol Catalog Number | BYT-ORB781476 |
| Supplier Catalog Number | orb781476 |
| Alternative Catalog Number | BYT-ORB781476-48, BYT-ORB781476-96 |
| Manufacturer | Biorbyt |
| Category | Kits/Assays |
| Application | ELISA |
| Species Reactivity | Mouse |
| Product Description | This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Motilin(MTL) protein. Standards or samples are added to the appropriate microtiter plate wells then with a ... |
| Concentration | 2000 pg/mL |
| Range | 31.25-2000 pg/mL |
| Sensitivity | 9.25 pg/mL |
| Samples | serum, plasma, cell lysates, cell culture supernates and other biological fluids |

Application Notes

Application Notes: standard: 2000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse MTL protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse MTL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse MTL in the samples is then determined by comparing the OD of the samples to the standard curve
