Product Datasheet

Rat Pregnancy Zone Protein (PZP) ELISA Kit BYT-ORB781547

Article Name	Rat Pregnancy Zone Protein (PZP) ELISA Kit
Biozol Catalog Number	BYT-ORB781547
Supplier Catalog Number	orb781547
Alternative Catalog Number	BYT-ORB781547-48, BYT-ORB781547-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pregnancy Zone Protein(PZP)....
Concentration	500 ng/mL
Range	7.82-500 ng/mL
Sensitivity	2.6 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 500 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat PZP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat PZP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat PZP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat PZP in the samples is then determined by comparing the OD of the samples to the standard curve
