Product Datasheet

Mouse Calbindin (CALB) ELISA Kit BYT-ORB781550

Article Name	Mouse Calbindin (CALB) ELISA Kit
Biozol Catalog Number	BYT-ORB781550
Supplier Catalog Number	orb781550
Alternative Catalog Number	BYT-ORB781550-48, BYT-ORB781550-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Calbindin(CALB)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.069 ng/mL
UniProt	P12658
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse CALB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse CALB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse CALB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse CALB in the samples is then determined by comparing the OD of the samples to the standard curve
