Product Datasheet

Rat Neuropilin 2 (NRP2) ELISA Kit BYT-ORB781597

Article Name	Rat Neuropilin 2 (NRP2) ELISA Kit
Biozol Catalog Number	BYT-ORB781597
Supplier Catalog Number	orb781597
Alternative Catalog Number	BYT-ORB781597-48, BYT-ORB781597-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Neuropilin 2(NRP2)....
Concentration	4000 pg/mL
Range	62.5-4000 pg/mL
Sensitivity	30 pg/mL
UniProt	O35276
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 4000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat NRP2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat NRP2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat NRP2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat NRP2 in the samples is then determined by comparing the OD of the samples to the standard curve
