Product Datasheet

Pig Myostatin (MSTN) ELISA Kit BYT-ORB781873

Article Name	Pig Myostatin (MSTN) ELISA Kit
Biozol Catalog Number	BYT-ORB781873
Supplier Catalog Number	orb781873
Alternative Catalog Number	BYT-ORB781873-48, BYT-ORB781873-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Porcine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Myostatin(MSTN)....
Concentration	8000 pg/mL
Range	125-8000 pg/mL
Sensitivity	52 pg/mL
UniProt	O18831
Samples	Serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 8000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig MSTN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig MSTN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig MSTN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig MSTN in the samples is then determined by comparing the OD of the samples to the standard curve
