Product Datasheet

Simian Cytochrome P450 1A1 (CYP1A1) ELISA Kit BYT-ORB781889

Article Name	Simian Cytochrome P450 1A1 (CYP1A1) ELISA Kit
Biozol Catalog Number	BYT-ORB781889
Supplier Catalog Number	orb781889
Alternative Catalog Number	BYT-ORB781889-48, BYT-ORB781889-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Primate
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cytochrome P450 1A1(CYP1A1)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.056 ng/mL
Samples	Tissue homogenates, cell lysates and other biological fluids.

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Simian CYP1A1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Simian CYP1A1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Simian CYP1A1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Simian CYP1A1 in the samples is then determined by comparing the OD of the samples to the standard curve
