Human Anti-Myelin Oligodendrocyte Glycoprotein Antibody (Anti-MOG) ELISA Kit BYT-ORB781920

Article Name	Human Anti-Myelin Oligodendrocyte Glycoprotein Antibody (Anti-MOG) ELISA Kit
Biozol Catalog Number	BYT-ORB781920
Supplier Catalog Number	orb781920
Alternative Catalog Number	BYT-ORB781920-48, BYT-ORB781920-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Anti-Myelin Oligodendrocyte Glycoprotein Antibody(Anti-MOG) protein. Standards or samples are added to the ...
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	1.15 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 200 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human Anti-MOG protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human Anti-MOG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human Anti-MOG in the samples is then determined by comparing the OD of the samples to the standard curve
