Product Datasheet

General S-Adenosyl Methionine (SAM) ELISA Kit BYT-ORB781945

Article Name	General S-Adenosyl Methionine (SAM) ELISA Kit
Biozol Catalog Number	BYT-ORB781945
Supplier Catalog Number	orb781945
Alternative Catalog Number	BYT-ORB781945-48, BYT-ORB781945-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	All
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with S-Adenosyl Methionine(SAM) protein. Standards or samples are added to the appropriate microtiter plate well...
Concentration	1000 ng/mL
Range	15.63-1000 ng/mL
Sensitivity	4.71 ng/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 1000 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with SAM protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to SAM. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of SAM in the samples is then determined by comparing the OD of the samples to the standard curve
