Product Datasheet

Pig Hepcidin (Hepc) ELISA Kit BYT-ORB781950

Article Name	Pig Hepcidin (Hepc) ELISA Kit
Biozol Catalog Number	BYT-ORB781950
Supplier Catalog Number	orb781950
Alternative Catalog Number	BYT-ORB781950-48, BYT-ORB781950-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Porcine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hepcidin(Hepc)....
Concentration	40 ng/mL
Range	0.63-40 ng/mL
Sensitivity	0.222 ng/mL
UniProt	Q8MJ80
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 40 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig Hepc. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig Hepc. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig Hepc, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig Hepc in the samples is then determined by comparing the OD of the samples to the standard curve
