Product Datasheet

General Dipalmitin (PP) ELISA Kit BYT-ORB782067

Article Name	General Dipalmitin (PP) ELISA Kit
Biozol Catalog Number	BYT-ORB782067
Supplier Catalog Number	orb782067
Alternative Catalog Number	BYT-ORB782067-48, BYT-ORB782067-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	All
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Dipalmitin(PP) protein. Standards or samples are added to the appropriate microtiter plate wells then with ...
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.09 pg/mL
Samples	biological agents

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with PP protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to PP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of PP in the samples is then determined by comparing the OD of the samples to the standard curve
