General Guanosine (GS) ELISA Kit BYT-ORB782071

Article Name	General Guanosine (GS) ELISA Kit
Biozol Catalog Number	BYT-ORB782071
Supplier Catalog Number	orb782071
Alternative Catalog Number	BYT-ORB782071-48, BYT-ORB782071-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	All
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Guanosine(GS) protein. Standards or samples are added to the appropriate microtiter plate wells then with a...
Concentration	20000 pg/mL
Range	312.5-20000 pg/mL
Sensitivity	78.7 pg/mL
Samples	biological agents

Application Notes

Application Notes: standard: 20000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with GS protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to GS. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of GS in the samples is then determined by comparing the OD of the samples to the standard curve
