Product Datasheet

Cattle Histone Cluster 1, H4a (HIST1H4A) ELISA Kit BYT-ORB782080

Article Name	Cattle Histone Cluster 1, H4a (HIST1H4A) ELISA Kit
Biozol Catalog Number	BYT-ORB782080
Supplier Catalog Number	orb782080
Alternative Catalog Number	BYT-ORB782080-48, BYT-ORB782080-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Bovine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Histone Cluster 1, H4a(HIST1H4A)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.055 ng/mL
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle HIST1H4A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle HIST1H4A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle HIST1H4A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle HIST1H4A in the samples is then determined by comparing the OD of the samples to the standard curve
