## Product Datasheet

### **Pig Serine/threonine-protein kinase mTOR (MTOR) ELISA Kit BYT-ORB782373**

Article Name	Pig Serine/threonine-protein kinase mTOR (MTOR) ELISA Kit
Biozol Catalog Number	BYT-ORB782373
Supplier Catalog Number	orb782373
Alternative Catalog Number	BYT-ORB782373-48, BYT-ORB782373-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Porcine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to MTOR(Serine/threonine-protein kinase mTOR)....
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.127 ng/mL
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 20 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig MTOR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig MTOR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig MTOR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig MTOR in the samples is then determined by comparing the OD of the samples to the standard curve
