## Product Datasheet

### Cattle Beta-Hydroxybutyric Acid (bHB) ELISA Kit BYT-ORB782412

Article Name	Cattle Beta-Hydroxybutyric Acid (bHB) ELISA Kit
Biozol Catalog Number	BYT-ORB782412
Supplier Catalog Number	orb782412
Alternative Catalog Number	BYT-ORB782412-48, BYT-ORB782412-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Bovine
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Beta-Hydroxybutyric Acid(bHB) protein. Standards or samples are added to the appropriate microtiter plate w...
Concentration	100 µg/mL
Range	1.57-100 µg/mL
Sensitivity	0.46 µg/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 100 µg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Cattle bHB protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle bHB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle bHB in the samples is then determined by comparing the OD of the samples to the standard curve
