Product Datasheet

Pig Androstenedione (ASD) ELISA Kit BYT-ORB782501

Article Name	Pig Androstenedione (ASD) ELISA Kit
Biozol Catalog Number	BYT-ORB782501
Supplier Catalog Number	orb782501
Alternative Catalog Number	BYT-ORB782501-48, BYT-ORB782501-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Porcine
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Androstenedione(ASD) protein. Standards or samples are added to the appropriate microtiter plate wells then...
Concentration	10000 pg/mL
Range	156.25-10000 pg/mL
Sensitivity	46.8 pg/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10000 pg/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Pig ASD protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig ASD. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig ASD in the samples is then determined by comparing the OD of the samples to the standard curve
