Product Datasheet

Dog Pro Atrial Natriuretic Peptide (Pro-ANP) ELISA Kit BYT-ORB782526

Article Name	Dog Pro Atrial Natriuretic Peptide (Pro-ANP) ELISA Kit
Biozol Catalog Number	BYT-ORB782526
Supplier Catalog Number	orb782526
Alternative Catalog Number	BYT-ORB782526-48, BYT-ORB782526-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Canine
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pro Atrial Natriuretic Peptide(Pro-ANP)....
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.053 ng/mL
UniProt	P07499
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog Pro-ANP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog Pro-ANP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog Pro-ANP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog Pro-ANP in the samples is then determined by comparing the OD of the samples to the standard curve
