Product Datasheet

Chicken Alanine Aminotransferase (ALT) ELISA Kit BYT-ORB782529

Article Name	Chicken Alanine Aminotransferase (ALT) ELISA Kit
Biozol Catalog Number	BYT-ORB782529
Supplier Catalog Number	orb782529
Alternative Catalog Number	BYT-ORB782529-48, BYT-ORB782529-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Gallus
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Alanine Aminotransferase(ALT)....
Concentration	10 U/L
Range	0.16-10 U/L
Sensitivity	0.058 U/L
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10 U/L. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Chicken ALT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Chicken ALT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Chicken ALT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Chicken ALT in the samples is then determined by comparing the OD of the samples to the standard curve
