Product Datasheet

Human Apelin Receptor (APLNR) ELISA Kit BYT-ORB782576

Article Name	Human Apelin Receptor (APLNR) ELISA Kit
Biozol Catalog Number	BYT-ORB782576
Supplier Catalog Number	orb782576
Alternative Catalog Number	BYT-ORB782576-48, BYT-ORB782576-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Apelin Receptor(APLNR)....
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	6.6 pg/mL
UniProt	P35414
Samples	Tissue homogenates and other biological fluids.

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human APLNR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human APLNR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human APLNR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human APLNR in the samples is then determined by comparing the OD of the samples to the standard curve
