Rat p-hydroxyphenyllactic acid (HPLA) ELISA Kit BYT-ORB782666

Article Name	Rat p-hydroxyphenyllactic acid (HPLA) ELISA Kit
Biozol Catalog Number	BYT-ORB782666
Supplier Catalog Number	orb782666
Alternative Catalog Number	BYT-ORB782666-48, BYT-ORB782666-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with p-hydroxyphenyllactic acid (HPLA) protein. Standards or samples are added to the appropriate microtiter pla...
Concentration	1000 ng/mL
Range	15.6-1000 ng/mL
Sensitivity	6.62 ng/mL
Samples	Serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 1000 ng/mL. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Rat HPLA protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat HPLA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat HPLA in the samples is then determined by comparing the OD of the samples to the standard curve
