Product Datasheet

Rat Lipid Peroxide (LPO) ELISA Kit BYT-ORB782690

Article Name	Rat Lipid Peroxide (LPO) ELISA Kit
Biozol Catalog Number	BYT-ORB782690
Supplier Catalog Number	orb782690
Alternative Catalog Number	BYT-ORB782690-48, BYT-ORB782690-96
Manufacturer	Biorbyt
Category	Kits/Assays
Application	ELISA
Species Reactivity	Rat
Product Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to LPO(Lipid Peroxide)....
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	1.048 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Application Notes: standard: 200 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat LPO. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat LPO. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat LPO, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat LPO in the samples is then determined by comparing the OD of the samples to the standard curve
