| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Source : Escherichia Coli. HDHC2 Human Recombinant produced in E.Coli is a single, non-glycosylated polypeptide chain containing 227 amino acids (1-204 a.a) and having a molecular mass of 25.8 kDa.HDHC2 is fused to a 23 amino acid His-tag at N-termin... |
| Purity                     | Greater than 95.0% as determined by SDS-PAGE.                                                                                                                                                                                                                 |
| Antibody Type              | Recombinant Antibody                                                                                                                                                                                                                                          |
