## Product Datasheet

### **Phospho-MAPKAPK2 (Thr334) (Clone: H2) rabbit mAb APC conjugate, Clone: [MAPKAPK2T334-H2], Rabbit, Monoclonal ABI-12-4194-10**

|                            |                                                                                                                                                                                                                                                               |

| Species Reactivity         | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                  | A synthetic phospho-peptide corresponding to residues surrounding Thr334 of human phospho MAPKAPK-2.                                                                                                                                                          |
| Conjugation                | APC                                                                                                                                                                                                                                                           |
| Product Description        | Mitogen-activated protein kinase (MAPK)-activated protein kinase 2 (phospho MAPKAPK-2 or phospho MK2) is phosphorylated and activated by the p38 MAPK and it is known to transduce a range of extracellular signals that result in inflammatory response, ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [MAPKAPK2T334-H2]                                                                                                                                                                                                                                             |
| Form                       | Conjugated                                                                                                                                                                                                                                                    |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu\text{L}$ per million cells or 5 $\mu\text{L}$ per 100 $\mu\text{L}$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
