## Product Datasheet

### **Phospho-Aurora A (Thr288)/Aurora B (Thr232)/Aurora C (Thr198) (Clone: CC12) rabbit mAb APC conjugate, Clone: [AuroraABC-CC12], Rabbit, Monoclonal ABI-12-4306**

|                            |                                                                                                                                                                                                                                                               |

| Form               | Conjugated                                                                                                                                                                                                                                                                     |
| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu$ L per million cells or 5 $\mu$ L per 100 $\mu$ L of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for add |
