| Immunogen                  | Recombinant full-length human HSP90B1 protein                                                                                                                                                                                                                 |
| Product Description        | Recognizes a protein of 94kDa, which is identified as the glucose-regulated protein 94 (grp94) and also tumor rejection antigen (gp96). Grp94 shows a high degree of sequence homology with the heat shock protein 90 (hsp90). This MAb is highly specific... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
