| Manufacturer               | TargetMol                                                                                                    |
| Category                   | Biochemikalien                                                                                               |
| Product Description        | MEGA-9 (Nonanoyl-N-Methylglucamide) solubilizes membrane protein and can be used as a nonionic detergent.... |
| Molecular Weight           | 335.44                                                                                                       |
| Purity                     | 99.59%                                                                                                       |
| CAS Number                 | [85261-19-4]                                                                                                 |
| Formula                    | C16H33NO6                                                                                                    |
| Target                     | Serine Protease                                                                                              |
