| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Cell-permeable inhibitor of Lyn-dependent effects of the IL-5 receptor. Blocks binding of Lyn tyrosine kinase to betac subunit of IL-3/GM-CSF/IL-5 receptors, blocking Lyn activation. Inhibits IL-5 receptor-mediated eosinophil differentiation and surv... |
| Molecular Weight           | 2370.91                                                                                                                                                                                                                                                       |
| CAS Number                 | [222018-18-0]                                                                                                                                                                                                                                                 |
| Formula                    | C115H184N30O24                                                                                                                                                                                                                                                |
| Target                     | Interleukin   Src                                                                                                                                                                                                                                             |
